Balancing benefits across multiple ownership working forest landscapes

Hebe Carus (Scotland)
World Forest Institute Fellow 2017
Scotland – the basics

- Part of the UK
- Population = 5 million
- Forested land = 18%
- Forest ownership = $\frac{1}{3}$ public & $\frac{2}{3}$ private
Challenges at the landscape-scale

- State
- Conservation organisation
- Family treefarm
- BLM
- Tribe
- Private industrial
- USFS

Huge thanks to -

• All study tour leaders & speakers
• Especially those that gave me one to one time –
  o Peter Hayes
  o Jeremy Maestas (Sage Grouse Initiative)
  o Brian Kittler (Pinchot Institute)
  o Lena Tucker (ODF)
  o Mark Rasmussen (Mason, Bruce and Girard Inc)
  o Andrew Spaeth (Sustainable Northwest)
  o Jennifer Allen (PSU / WFC)
  o Susan Jane Brown (Western Environmental Law Centre)
  o Lori Hennings (Metro)
  o Emily Jane Davis (OSU Extension)
  o Josh Halofsky (WA DNR)
  o Teodora Minkova (WA DNR / OESF)
  o Peter Dalke (Oregon Solutions)
